I just got this silly bug book a whole week after it was published how am I supposed to be hot & trendy with the Fans if I get the book when it's old news aw rats :(

I have not read it yet and I have to go make something to eat soon due to the demands of my weak physical form but here are some initial thoughts for your trouble: the cover is teal & the inside is a lovely purplish-red and the cover just gives off a glowing pink thats a hot aesthetic

Still haven't read it because it has been like five minutes but hoo boys this is one Crispie book, nary a cracked spine round these parts

since there's so few tribes the front matter feels HD this is the future liberals want

me when i dont have a fresh hot new wof book: yeah im just not that into it anymore ive moved on
me when im slicing open the packaging from my order of a fresh hot wof book: HHHHHHHH

additionally I cannot focus on more than one thing at a time so I'm gonna write some Notes and then I'll piece together the spiciest hot takes and share those. i just Really wanted to say I was going to livetweet something lol, nobody reads this anyway so thats cool

I read the prologue I'm cool now !!!

Hmm ok well this is a part I was very wary about because, yknow, lowkey colonialism vibes by virtue of the subject matter (Please have it be noted that im not saying it is, necessarily, i'm just saying that it was something I was really curious and really wary about) and like uhhh I don't have a stance yet. Don't yell at me. Yet.

The writing is nice, I like Clearsight, Pantala has blackberries and this is very noteworthy.

Major takeaway? I cant beleive rjthe language is vlcaeldlr.....D...RAGON.....i just?? i need a minute??????

Granted I am not very good at conlangs but I make them all the time so I just have a lot of feelings about this entire affair

Chapter 1

You know how in the movie "Cars" there are bugs and they are just very small cars with wings? (I haven't seen the movie "Cars" since I was really little, but I really hope they make a joke about punchbuggy at some point) Well, I have a lot of questions about what Pantalan bugs are like. I bring this up because of Blue's rosy-pink neighbor

Chapters 3 & 4

Things are happening oooo

I just realized that the LeafWing ordeal is, like, a recent thing in-universe. I thought it was from a loooong time ago for some reason. Or Queen Wasp is really old.

I like this a lot so far! I love Blue, I like all his little questions. I think that's a kind of cool and unique (at least from other books I've read) way of establishing character, through interactions with other characters, without said character ever having to interact with other characters. Which is relatable

I like Luna too but a little bit less so. Like, pretty much every word she's said so far just sounds like Kinkajou. And I assume I'm probably not going to see much of her for a while now.

Swordtail? I would trust him with my life

The imagery of the SilkWings silking all over the place is somewhat ummm uncomfy

Chapters 5 & 6

Io slays me what an iconic babe I love her

"YAAAAAAAAAAAH" - blue the silkwing 2k18

mayhaps i was just really, *really* into spies and codes when I was a kid but hmmm after I read this one particular sentence a couple times (I thought it was a legitimate conversation abt gardening, I thought Io was like "oops i yeeted my buddy into your plants but it'll be fine I promise") hmmmmmm I think that maaaaaybe that has....meaning.....

Is this arc going to be about empathy toward bad people versus rebellion at any cost? Because that would be cool :0

When a sentence is written in bold you know treestuff is about to hit the hive (for lack of a better saying!)

blue is swingin on big strands of silk and the soundtrack to the animated film Tarzan is blasting in my head

me, the second that blue's rescuer is referred to as female: *looks into the imaginary camera with a knowing look*

Interesting how Pyrrhia has scrolls but Pantala has books! I don't know why that is, maybe it's easier to bind books using silk? Or maybe they have leather because, like, they can leave skins out in the sun without having to worry about someone...eating it? Setting it on fire? I have no idea. If this book goes into Pantala's bookbinding process I will be shaken to my very core.

Chapter 7

Oh darn...I like Cricket! I have a penchant for a dragon in spectacles. Also she's smart and cute and talks a lot. I like her so far

Also.....she and Blue.....ask questions.....Cinematic Parallels. A match made in dragon heaven

"...like a prism. Prism. Words were funny." can't believe wings of fire dot scholastic dot com user magentaunicorn254 aka Prism is being namedropped ?

I like Cricket but gosh what's her deal. Immediately hugging a complete stranger. Pouring out all her secrets which seem kinda important. Offering to harbor a fugitive who she doesn't even know. Calling him a "beautiful dragon." She's forward

you've (possibly) heard of "oh, worm?" now get ready for "Whrm?" page 74

praying to Clearsight???? Hmmm...I want to say, interesting? Hope this goes somewhere

I don't know if this book is going to go into the intricacies of Pantalan metalworking, but like, how do they forge things? Do flamesilks do EVERYTHING around here?

Chapter 8

I think I am well at ease with the stance of liking both Blue and Cricket as characters, and quite a lot actually, but is this how romance works?? I'm so confused?? They just met, Blue has been asleep most of this time, what is going on????

Something I like about Blue is how it seems like his boiled-down character trait/motivation is empathy, which is something that I'm not very good at but that I value really highly as far as basic human traits/skills go. And it's not very common in male characters, I've come to notice. So...I really like Blue, much more than I expected to!

Gosh, I hope the dynamic between Cricket and Katydid is developed, it sounds really interesting. (Katydid is a cute name, I knew a dog named Katydid once.)

Metalworking was actually addressed, this book *went there*, imagine my shock, im floored

Flamesilk sounds really interesting. Anyone remember when Winter Turning was coming out and Tui Sutherland wrote a post about coming up with ideas for non-fire-based light sources? I wonder if flamesilk is a relic from that brainstorm. It has nothing at all to do with IceWings but it is a light source so I'm going to bring it up

I already know that Blue meets his dad but oh boy I hope Blue meets his dad, I love reading about dads who make terrible parenting choices because I'm edgy or something I guess. I expect that Admiral will be a bad dad because 1) all other dads in this series. are bad. 2) basically? most dads in fiction are not very good 3) this book is dedicated to the author's parents with the addendum "thank you for being nothing like any of these dragon parents." Deductive reasoning m'dudes

Chapters 9 & 10

I once met somebody who was going to an agriculture track school, not even college, she just went to a really weird school.

If I ever have a lover and we have an argument I'm going to tearfully shout, "Why can't you just grow potatoes like a useful dragon?" I don't think that will help the fight at all but it would be really funny imo

this is like Wall-E bc it has a tree in it, I said it

imagine your name is "Lubber" (no offense to people named Lubber)

Am I really so low, that I see the word "dabbing" - even in the explicit context of someone painting - and my immediate reaction is to say, softly but undeniably out loud, "nice"? Why, yes.

Chapters 11 & 12

wheres Io this is a matter of national importance is she ok dont tell me :(

This is a bad setting -- I mean, it's good, but like, a bad place written well -- run by bad dragons but for a sort of dystopia, it's pretty cool! And as someone who's read quite a lot of dystopian fiction, I always find it kind of cool when the protagonist (initially) isn't predisposed to revolution. That makes character development more obvious and I am so bad at character development that I need it to be as blatantly obvious as possible

I hope this theme that comes up regarding Cricket persists. By that I mean, the theme of a mostly innocent dragon from a group of dragons who do horrible, heinous, awful things to other dragons, and who have been doing those horrible, heinous, awful things for, it would seem, a long time, *realizing* how horrible and heinous and awful those things are, and having to deal with it. That's something that I think is sort of relevant.

I wish that there was a little banner in the bottom of page 115 that said "kids, don't try this at home!"

Praying to Clearsight again gggghhh hope this comes up in a major way later on -- this is some worldbuilding flavour I'd like to see developed

SWORDTAIL is that a MYSTERIOUS, UNPROVEN POSSIBLE ANTIDOTE? no it's a -- I'M CALLING THE POLICE

Swordtail is also a relatable character: my legs, too, are very demanding -- of attention! Hahahaha I am a delight to be around

You ever played The Legend of Zelda? You know the pots that are everywhere? I'm sure it's not just a "me" thing but whenever I see those pots I just gotta pick up and throw em at a wall. Well, that's what Swordtail's reminding me of right now.

Did I miss something? Does Cricket only have two wings? Why does she say "My own two wings work perfectly fine" if HiveWings have four wings? This is a legitimate question, I feel like I missed out on something.

So that's the end of Part One! I'm ever so pleasantly surprised. I mean, my sour feelings toward WoF books tend to veer toward the end of any given book, so I'm trying not to be overly enthusiastic, but I was really not excited about this book at all and I'm enjoying it a lot so far. I think the new tribes are interesting. I don't like them as much as I like the old tribes because I'm a sentimental old sap and to be honest I can't help wishing that we'd gotten more development in the other tribes before we moved on to new ones. (I've been thinking a lot about MudWings lately and I despair at how little is known about them.) I love Blue -- like I said before, I love it when characters are motivated by empathy, and especially male characters, because I am a strong independent man who don't need no toxic masculinity and I like to have ~Fictional Role Models~ and who better than a naively empathetic little nerd surely on his way to viva la revolution? (Yes, I know that's not a very grammatical thing to say.) I like Cricket, who I was expecting to dislike -- from what I knew about her I thought she would lean too heavily into other characters', uh, characterization, like Starflight and Kinkajou and maybe Fatespeaker, but she's her own dragon I think. I don't know if I've highlighted this but the writing is *amazing*, while the second arc left me feeling really horrible I can't deny that Tui's writing keeps getting better and better the more books she writes.

I'm eager to read what happens next (though I'm going to take a break for now; I'm trying to savour this book more so than I do with the others), and I might even be eager for the rest of this arc. And thank you all so much for liking this thread, I thought it would blow over pretty fast but now you've got me all flattered and appreciative

Little bit late but I am loving your observations, here are my comments on your comments in reverse chronological order:

Spider-man based SilkWing OCs are the best

Uhhh the two wings thing is probably an oversight??

"Clever, how could you do this?!"

"WHy can't you just grow potatoes like a useful dragon?!?"

Potential future lover chokes on drink

Yeah I basically also read the whole book going "Yeah there's no way Admiral's a good dad, not in *this* series"

I too think Cricket is the best but I might be a little biased because she's basically me but an extrovert

Oh wow, I didn't even notice that they used books instead of scrolls!

Honestly when Blue started swinging around on the silk my first thought was, "Oh look, they *can* do the Spider-man thing!"

Yeah my brother and I have been laughing about the name "treestuff" for days now

hIVEWING HUFFLEPUFFS Y'ALL

Literally my first thought when I opened the book was "Oh my moons the tribe pictures are HUUUGE"

@Oncilla: Every part of that made me laugh, thank you for the commentary on my commentary (yeah, I think the two wings thing is a mistake and a pretty easily forgiven one)

I finished the book this morning so my "livetweeting" is horribly out of date but shall persist nonetheless (although I probably won't get it done by today; I have to go flinch at firecrackers for an entire evening instead)

Chapter 16

this is my band, "Intestines and Shrub Thickets" (or...."Cricket and the Shrub Thickets"? I look for band names in all things)

I know they're a good and useful shape but shoutout to Queen Wasp for making everything hexagonal to keep true to her brand

Swordtail, to Blue: Let's talk about this plan of yours -- it's great, except, it sucks. So how about we let ME do the plan, and that way it might be really good

Keyboard smash (I...I literally wrote the word "keyboard smash" in my notebook) I like the greenhouse sign, it sounds like a TV Tropes page

I know Queen Wasp gets by on fearmongering but wow she has, like, one wall of defense

I can't take LeafWings seriously because once I saw a photoshopped picture of one frowning but it looked like it was melting and now I imagine all of them looking like that all the time

Also: LeafWings! Exactly no one is surprised

Chapters 17 & 18

they're just angry RainWings what's the big deal

Sundew is cool because she peppers her threats with things like actual centipedes

Maybe it's just because this is reminiscent of a "revel against the totalitarian government" type YA novel but the presence of another female character noted to be around the same age as the protagonist makes me very, very wary

When Belladonna said the zinger (which I was really hoping she was going to say, I'm so satisfied now) all I heard was that classic line from National Treasure, "I'm going to steal the Declaration of Independence"

"Grandmother to an entire tribe" please be HiveWing propaganda please be HiveWing propaganda please be HiveWing propaganda

I like it when I'm so wrapped up in a world (one might say...cocooned in a world) that figres of speech like a "small flame of hope" throw me out of it. I know flamesilk is a thing but still seems like a weird metaphor for dragons who don't breathe fire

bringing up equality now, that's a cool theme to do, hope it's done well

okay so I'm glad someone's questioning Cricket's enthusiasm to help Blue

Now Cricket refers to all four of her wings! I already said this but I'm guessing that earlier thing was just an error there's tigers here too!?!? what!?!?!?

woah very meta

"I'm not partial to crushes but I don't think they spring up like this! If it weren't going to darn fast I would think Cricket and Blue was a ship with a lot of potential"
eXACTLY I ship them just it's happening way too fast and I'm pretty sure that's not how healthy romances work!

"I like it when I'm so wrapped up in a world (one might say...cocooned in a world) that figures of speech like a "small flame of hope" throw me out of it. I know flamesilk is a thing but still seems like a weird metaphor for dragons who don't breathe fire"
idk how to put my reaction to this into words except that you should be a real book critic

Honestly, I'm blown away by your ability to use incorrect grammar and memes to convey both humorous and intelligent thoughts. Looking forward to future not-livetweets!

Chapters 19, 20, & 21

Sundew is like...I don't know how to describe it, like a bossy jock girl in an outdated cartoon. I like her!

Hmm this interaction with Belladonna raises some questions. Blue, man, help me out here...

I think I like Sundew so far. She's angry. I like that in a character, especially coming from circumstances like hers.

I think the addition of Sundew was a good choice because it raises ~Important Questions~ and that seems to be a major theme (a theme that I like, to be clear)

OH HECK I THINK I GET WHAT'S GOING ON HERE !

The library/temple is cool. I wish I could rationalize the weird dismal sinking feeling it elicits in me, though.

mysterious cloaked librarians are a good way to end any chapter

Why do they call each other "worms" all the time lol

again with the tigers whaaaat!!

The reveal with the Librarian? I officially deem it to be cool

Me, with my two (2) interests: oh boy this is like that part in Macbeth

That's Part 2! (I put all these notes together at once because I am soooo tired today, sorry.) I kind of feel like very little happened in this part of the book? The plot to steal the Book of Clearsight was awesome but it came and went really fast. I don't mind the stirrings of romance between the leads, it's actually far less than I expected (which I see as a good thing) and I'm really glad that Sundew maaaaaaaaybe isn't a romantic rival to Cricket. I was worried this would be a love triangle but given the amount of remaining pages I don't think it will be. Thank you all for sticking with me, I'm nearly finished!
